3. Affordability Assessment

Contributions to the scheme represent less than 5.5% of free cashflow, leaving substantial capacity to support the scheme. The sponsor has reaffirmed its commitment to the current recovery plan and to supporting a BPA transaction subject to pricing.

Contributions to the scheme represent less than 5.5% of free cashflow, leaving substantial capacity to support the scheme. The sponsor has reaffirmed its commitment to the current recovery plan and to supporting a BPA transaction subject to pricing.

8. BPA Transaction Impact

A BPA transaction of GBP 88.9m would materially reduce the sponsor's exposure to the scheme. The Trustee has modelled a range of scenarios and concludes that the transaction would be covenant-accretive.

A BPA transaction of GBP 88.9m would materially reduce the sponsor's exposure to the scheme. The Trustee has modelled a range of scenarios and concludes that the transaction would be covenant-accretive.
